

Code of Conduct for NZ Hydraulikzylinder suppliers

Dear Sir or Madam,

Corporate Responsibility is a central and fundamental part of the NZ Hydraulikzylinder strategy for safeguarding the success and future of our company and our business partners. With it, we take into account economic, social, ethical and environmental issues for our policies and practices.

To ensure our Corporate Responsibility principles along the complete supply chain, we are approaching our suppliers for their partnership in this venture. We ask you, as an important supplier of NZ Hydraulikzylinder, to support our sustainability management through ensuring compliance with our principles. These principles shall be valid and beneficial to your company and for your own supply chain.

We kindly ask you to confirm acceptance of the attached Code of Conduct for NZ Hydraulikzylinder Suppliers and Corporate Responsibility in the Supply Chain and to return the signed Declaration of the supplier not later than _____ to the following address:
